

ST. JOHN'S MEDICAL COLLEGE, BANGALORE

DEPARTMENT OF PATHOLOGY

FELLOWSHIP in PEDIATRIC PATHOLOGY

The Department of Pathology at St. John's Medical College, Bangalore offers a one-year training program in anatomic Pediatric pathology. The training program is based primarily upon the study and reporting of Pediatric surgical specimens and the performance of autopsies. In addition, fellows receive training in Pediatric subspecialties like placental pathology, dermatopathology, gastrointestinal and liver pathology, renal pathology, immunopathology, Hirschprung's disease diagnostics, hematopathology, cytogenetics and molecular diagnostics.

Eligibility Criteria:

MD (Pathology) post-graduation from NMC recognized medical college/ DNB (Pathology)

Fellowship Structure:

The fellow will rotate through the core services on weekly basis (Histopathology, Fine needle aspiration cytology, Immunopathology) and participate in day-to-day reporting, CPCs, Seminars and Jjournal clubs. For the want of better clinical exposure, the fellow will take part in grand rounds of the Pediatric surgery wards and Pediatric oncology wards with the Pediatric surgeons and the Pediatric oncologists. He/she will be required to undertake a research project and present a paper at a state/national level conference. There will be an exit written and practical exam. A nominal monthly stipend will be given. Accommodation and transport arrangements must be made by the candidate.

Responsibilities of the Fellow:

1. Surgical pathology/cytology reporting with all consultants on rotation
2. Will actively take part in daily academic sessions
3. Subspecialty discussion with the consultants
4. Participate in daily grossing sessions, intraoperative consultations and autopsy calls
5. Preparation and presentations in the Pediatric clinicopathology meetings
6. The fellow should keep a case log for surgical and autopsy cases

Evaluation:

There will be an exit exam at the end of the Fellowship programme

Course commences on 1st July 2023
