Brain Death Workshop and CME

6 th May 2023

Message from Organising Secretary

Dear Friends,

Greetings from the department of surgical/neuro intensive care unit and anesthesia of St John's medical college and hospital.

As part of diamond jubilee year celebration, it gives us immense pleasure to invite you to join the brain death cme and workshop to be held at st john's medical college on 6th may 2023.

The concept of Brain death and brain-stem death, its relevance to organ donation and its legal implications are new to most of the general population and are still unclear to many medical students and practitioners

This CME will be a day filled with didactic lectures, interactive sessions and workshops delivered by experts in the field. The programme is designed to comprehensively cover all aspects of brain death and will be of interest to consultants, postgraduates, undergraduates, nursing staff and allied health sciences.

Looking forward to welcoming you all to the CME and workshop

Regards,

Organizing Team
