MESSAGE FROM THE ORGANIZING SECRETARY

*Greetings from the Department of Critical Care Medicine,
St Johns Medical College Hospital!*

*We are delighted to invite you to our Diamond Jubilee
Conference CRITIQUEST 2023.*

Critical Care is an ever-growing field, and even with a large body of evidence, one is faced with several challenges with decision making at the bedside. Come join us in this one-day CME where we discuss these challenges head on and hear opinions from expert intensivists across the country and globally. The CME will be preceded by 2 workshops, one being Hemodynamic monitoring in ICU, a must know and valuable tool for all critical care specialists. Mastering the art of communication is no easy feat and to help you achieve it, we present the second workshop on Communication in ICU.

*Looking forward to meeting you all at CRITIQUEST
2023!!*

CONFERENCE HIGHLIGHTS

- **Topics centred on current challenges faced by intensivists which will aid your daily practice**
- **Renowned national and international faculty as guest speakers**
- **One-of-a-kind, comprehensive workshops on Communication in ICU and Hemodynamic monitoring in ICU**
- **Opportunity for presenting your research/innovative ideas for diagnosis and management of critically ill patients**
- **Quiz with attractive cash prizes**
